

The Fundació Bosch i Gimpera was created in 1983 as a knowledge, technology and innovation transfer center of the University of Barcelona (UB). As its own means, it is in charge of innovation, promotion, valorization, transfer of results and management of contracts, agreements and projects of the UB and needs to incorporate:

Production Technician position at Creatio, University of Barcelona

Functions:

The Production Technician position is available in the Area for Clinical Production of the Production and Validation Center of Advanced Therapies (Creatio). The position involves the tasks of the responsible for the Production of Advanced Therapy Medicinal Products (ATMPs) for all medical disciplines.

The Area for Clinical Production is involved in the following processes:

Cell-based therapeutic products.

Gene therapy products and lentiviral production in our GMP facility.

Tissue engineering products and production of artificial scaffolds.

3D bioprinting tissues.

GMP and UNE-EN-ISO:9001 protocols.

This work will be performed at Creatio's Clinical Area in close contact with the laboratory of Stem Cell and Regenerative Medicine at the Department of Biomedical Sciences at the Faculty of Medicine and Health Sciences, University of Barcelona. Creatio is integrated in the Spanish network of Advanced Therapies (RICORDS; TERA-V), which provides a collaborative environment to successfully achieve our objectives.

Profile:

Production Technician:

Carry out the technical tasks of drug production for the different therapies in progress as assigned by the Production Manager.

Entry of materials and reagents following the quality system.

Research processes and cell culture work.

Maintenance of equipment and facilities.

Participate in the Validation and Qualification activities of the medicines produced.

Fine-tuning of the production of artificial tissues through 3D bioprinting.

Preparation of the documentation assigned to him in relation to the production of advanced therapy drugs.

Complete and register the documentation in the manner defined in the Quality System.

Comply with Good Manufacturing Practices (GMP) and Quality Systems.

Competencies:

Applicants are required to hold a superior laboratory technician grade (FP2), with background experience in Quality Systems.

Experience in a biomedical laboratory.

High level professional training (FP2), intermediate level training cycles, baccalaureate, or an equivalent qualification.

Availability to work during weekends.

Other positive considerations:

Experience in cell or gene therapy and tissue engineering.

Knowledge of GMP.

Knowledge of UNE-EN ISO 9000.
Language knowledge: Catalan, English and Spanish.
Organized, methodical, proactive, and motivated.
Ability to work with other team members.

We offer:

- Permanent contract
- Weekly schedule: 37.5 (includes weekends when needing)
- Gross monthly salary: 2060 Euros

Reserve:

Reserved for personnel with disabilities, in accordance with the provisions of Article 59 of the Legislative RD 5/2015, of October 30, passing the revised text of the Law of the Basic Statute of Public Employee.

Equality of opportunities:

In accordance with the measures set forth in the Fundació Bosch i Gimpera Equality Plan, we incorporate the gender perspective in the selection process to guarantee equal opportunities, neutrality, transparency and avoid prejudice and discrimination based on gender.
