

The Fundació Bosch i Gimpera was created in 1983 as a knowledge, technology and innovation transfer center of the University of Barcelona (UB). As its own means, it is in charge of innovation, promotion, valorization, transfer of results and management of contracts, agreements and projects of the UB and needs to incorporate:

Postdoc/Research director

Functions:

1. Carry out essential research functions in the laboratory that include but are not limited to: touch DNA isolation, forensic DNA quantification by real-time PCR, human STRs amplification, genotyping, capillary electrophoresis analysis, and STRs profiles analysis.
2. Write protocols for the project and possible papers as result of the investigation.
3. To have the initiative of proposing new ideas and solutions and maintain relations with our collaborating foreign company.

Profile:

1. The required degree is a PhD in medicine or biology with a focus on forensic science.
2. The candidate must possess a native level of Italian to communicate with the granting company, as well as a high level of English and Spanish (Catalan is desirable but not fundamental).
3. The candidate must possess experience in both crime scene analysis and laboratory forensic science, as well as in handling DNA samples, collecting samples using floc swabs, and analyzing forensic DNA profiling.
4. Experience working in a forensic lab.

Competencies:

Excellent teamwork, initiative, and problem-solving capabilities
